Linux/Windows
PHP 4.3 or greater
MySQL database server 4.1 or greater
Apache or IIS5/6 Web Server

Other settings

SendMail - (Yes)
PHP safe mode - (OFF)
PHP open_basedir - (OFF)
CURL extension - (Yes)

Install Checklist

1. Create a new MySQL database with new user that has full rights to it.
2. Upload iScripts MultiCart files.
3. Run install script.
4. Delete install directory.
5. Customize as desired.
6. Test.
7. Go Live!

Installation

Create Database

Create a new MySQL database and new user with full rights to the database. Check with your server's control panel documentation for details on how to create databases on your system.

Upload files

Unzip the iScripts MultiCart full install zip file with paths in your computer. Upload all files maintaining the directory structure.

OR

Upload the iScripts MultiCart full install zip file and unzip on your server. If you do this, be sure your files are owned by the user who owns the site.

Run the install script

Open a new browser window. Surf to [http://\[your_ iScripts MultiCart_domain\]/install/install.php](http://[your_ iScripts MultiCart_domain]/install/install.php) (Substitute your domain name for [your_ iScripts MultiCart_domain])

Step 1:

The first screen contains 4 sections

1. Database Details section
2. Site Details section
3. Display & Image Settings section
4. Administration Details section

Database Details section

This section displays the following fields to fill

- a. Database Server Hostname – enter the hostname of your database server.
- b. Database Name – name of your database.
- c. Database User Name – database username.
- d. Database Password – database password.
- e. Database Prefix – specify a name as table prefix.

Site Details section

Enter the name of the site corresponding to the field ' Site Name '

Display & Image Settings section

Browse the site logo

Administration Details section

Site administration details are recorded in this section. It displays the following fields

- a. Admin Login Name – administrator login name
- b. Admin Password – administrator password
- c. Confirm Admin Password – confirm the administrator password by reentering here
- d. Admin Email – email address of the administrator

click on the “continue” button to go to step2

Step 2:

If the installation is successful you will get the following message

“Congratulations! The Installation Process is completed successfully! ”

iScripts MultiCart installation is complete!

Remove or rename and relocate the install directory. This is a security measure, you don't want anyone surfing to it.
